Professional Summary

UI/UX Designer & Developer with 11+ years of experience building scalable fintech, ecommerce, and AI-powered digital products used by 50K+ users globally. AI Design Expert skilled in leveraging AI-assisted design workflows, AI-driven prototyping tools, and emerging AI/UX patterns to accelerate design cycles and improve product outcomes. Proficient in Figma, WordPress, and Shopify, with strong expertise in mobile UX, user research, rapid prototyping, and scalable design systems. Proven ability to translate complex requirements into intuitive, high-impact user experiences while collaborating closely with product managers, AI engineers, developers, and stakeholders in Agile environments to deliver solutions aligned with business goals.

Key Achievements

- Improved task success rate by 25% through targeted UX usability enhancements across SaaS and AI-enabled platforms
- Reduced design-to-development time by 30% by building scalable design systems and reusable UI component libraries
- Designed fintech, B2B, and AI-driven digital products serving 50K+ active users globally
- Led mobile UX redesign initiatives that boosted user engagement, retention, and cross-platform product consistency
- Delivered 10+ end-to-end product design projects, from user research and rapid prototyping to high-fidelity UI delivery
- Partnered with product managers, developers, and AI engineers to validate concepts through iterative design experimentation, accelerating time-to-market
- Leveraged AI tools (ChatGPT, Claude AI) to speed up UX research, content structuring, ideation, and daily workflow efficiency

Core Skills

UX & Product Design:

- Product Design
- Mobile UX
- UX Research
- User-Centered Design
- Design Thinking
- Interaction Design
- User Flows
- Journey Mapping
- Information Architecture
- Wireframing & Prototyping
- Design Systems
- Usability Testing
- Accessibility (WCAG)

Tools:

- Figma
- Adobe XD
- Sketch
- InVision
- Framer
- Balsamiq
- Miro
- Photoshop

Frontend Development:

- HTML5
- CSS3
- Bootstrap
- Responsive Design
- JavaScript
- Angular

CMS & E-Commerce:

- WordPress
- Shopify
- WooCommerce

Collaboration:

- Agile / Scrum
- Stakeholder Management
- Developer Collaboration
- Design Handoff

AI Tools:

- ChatGPT
- Claude AI
- Canva

UX DESIGN PROCESS

User Research → Information Architecture → Wireframing → Prototyping → Usability Testing → Design Systems → Developer Handoff

Professional Experience

Senior UI/UX & Product Designer – Sprintrise – India – April 2024 – Till date

- Established UI standards and scalable design systems across AI-driven and digital platforms
- Worked on AI-assisted design workflows and rapid prototyping for faster product validation
- Collaborated with AI engineers, product managers, and developers to design intuitive user experiences for AI-enabled solutions
- Designed mobile UX solutions improving usability, accessibility, and product consistency
- Created user flows, wireframes, and high-fidelity interfaces simplifying complex AI concepts into user-friendly experiences
- Utilized AI tools such as ChatGPT and Claude AI for UX research, ideation, content structuring, and workflow optimization
- Streamlined design-to-development collaboration in Agile environments through reusable design components

Senior UI/UX Designer – Safaltek Software Pvt. Ltd. – Mohali, India – Mar 2020 – Mar 2024

- Led end-to-end UI/UX and Product Design for 10+ web and mobile applications across B2B, B2C, and SaaS platforms, supporting products used by 50K+ users.
- Conducted UX research, usability testing, heuristic evaluation, and WCAG 2.1 accessibility audits, improving task success rate by 25% and reducing usability issues post-launch.
- Worked collaboratively with product managers and Agile teams to deliver user-focused solutions
- Designed wireframes, prototypes, and high-fidelity interfaces using Figma

UI/UX Designer – CSS House – Mohali, India – Sep 2019 – Mar 2020

- Established UI standards and best practices for web and mobile products.
- Owned UX definition, information architecture, and high-fidelity UI design.
- Delivered mobile UI solutions and supported development teams with documentation and handoff.
- Designed wireframes, user flows, and interactive prototypes using Figma and Adobe XD.
- Built and maintained design systems and collaborated with cross-functional Agile teams.

UI/UX Designer – Volo Consulting Pvt. Ltd. – Mohali, India – Dec 2015 – Aug 2019

- Designed user-centric web and mobile interfaces for B2B and B2C platforms.
- Conducted UX research and usability testing. Developed design systems and collaborated in Agile environments.

UI/UX Designer – IT7Solutions Pvt. Ltd. – Mohali, India – Oct 2014 – Dec 2015

- Resolved UI/UX issues, supported UI integration in ASP.NET applications, and improved interface responsiveness and reporting usability.
